## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of claims 1-18 in the paper filed 1/5/2004 is acknowledged.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### *Allowable Subject Matter*

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

Phillips et al. (US 4734209) discloses several <sup>thi</sup>thiazole derivatives in a corrosion inhibitor, however there is no teaching or motivation to combine the Phillips reference with another reference containing the instant acyl amino acid derivative to form the instant corrosion inhibitor. None of the references teach or disclose the instantly claimed formulations for corrosion-inhibiting emulsifying, lubricating or as a surfactant in organic hydrocarbon and/or water based system containing the instantly claimed acyl amino acid derivative and a thiazole derivatives.

Art Unit: 1751

Therefore it would not have been obvious to create the instantly claimed formulation at the time the invention was made in view of Phillips or any of the other references cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
